

Get a Free Web Site Link from TOPS Software

Good News! TOPS software has an exciting feature on our corporate web site, called the *Management Company Locator*. It allows visitors our web site, www.topssoft.com, to find a management company in their area. When a community looks in your area, they can click on a link that will take them right to your web site. With over 100,000 visitors to our web site each month, many from communities who are looking at management alternatives, this could be a good source of leads for your company.

This service, a \$240.00 value, is being extended *free* to management companies who have a web site through TOPS Software. If you are interested in receiving this service, simply check the appropriate box below and fax this form back to us.
